GERMAN DELAYS ARE IRRITATING

Allied and Associated Powers Are Contemplating Issue of an Ultimatum.

NO WORD FROM ENEMY

Bauer Government Reported to Be Having Great Difficulty in Finding Men Willing to Acknowledge Complete Defeat.

Paris, June 26.—Another day has passed with the delegates of the Allied and associated powers in Paris awaiting in vain for definite word from the Germans as to when they will be ready to sign the peace treaty.

Unofficial opinion in the French capital is that the event will not take place before Saturday, and possibly not until Monday.

The Council of Four was informed the German government was engaged in trying to arrange the personnel of its delegation.

No Choice Made.

The Germans thus far have given no intimation as to what men are to be the choice of the Bauer government. Unofficial advice indicates that the cabinet is experiencing difficulty in finding men who are willing to take upon their shoulders the duty of acknowledging Germany's utter defeat in the war and her unqualified acquiescence to the terms of the victors.

Reports are that Herr Mueller, foreign secretary in the Bauer cabinet, like Dr. Haniel von Haimhausen, declined to accept the onus for signing a treaty admittedly obnoxious to the Germans.

Secretary Uninformed.

Even a visit to Versailles, where the members of the original German delegation still are, by the general secretary of the Peace conference, failed to bring forth any knowledge of what was being done in Germany toward the selection of plenipotentiaries.

Paris dispatches assert that owing to the uncertainty of the situation, the heads of the Allied and associated powers are contemplating the issue of an ultimatum setting a day and a time satisfactory to them for the appearance of the Germans before Peace conference to sign the peace treaty.

Must Carry Out Treaty.

London, June 26.—President Ebert of Germany, Premier Bauer and all the ministers have issued a proclamation to the German people, according to a Berlin wireless message, announcing the conclusion of peace and urging as the first pressing need the bending of all efforts to its fulfillment. "As far as it is possible to carry it out," says the proclamation, "the treaty must be carried out."

It declares faithful loyalty to those threatened with separation from the empire and promises to intercede in their behalf, "as we would intercede for ourselves." It concludes by exhorting the people to realize the need of work and faithfulness to duty for the redemption of the country.

WAR LABOR BOARD THROUGH

No New Cases Will Be Heard or Applications Received.

Washington, June 26.—The National War Labor board ended its activities preparatory to final dissolution by the President. No new cases will be heard, nor new applications received, but present controversies, jointly submitted, which cannot be concluded before June 30 will be assigned to the joint chairman or a section of the board for disposition.

In the year which ended May 31 the board received 1,245 cases, made awards in 462 cases, dismissed 391 for various causes, referred 315 to specified agencies, and suspended one case.

GERMAN OFFICERS PEEVED

Many Vigorously Oppose Surrender of Former Leaders.

Berlin, June 26.—Major von Gilso dealt the report that German army officers had been resigning as a protest against the acceptance of the peace terms. Nevertheless, it is said, the regular army officers will oppose vigorously the surrender of their former leaders.

ORDER WORKMEN TO COLORS

Hungarian Reds Realize Military Situation Is Serious.

Paris, June 26.—The Hungarian Communist congress has ordered the general mobilization of all workmen, a dispatch from Budapest says. The military situation is said to be unfavorable to Hungary and in addition the morale of the troops is bad.

Jeff Smith Shades Brosseau.

Montreal, June 26.—Jeff Smith, formerly of the American army, shaded Eugene Brosseau, recently released from the Royal Air forces, and former amateur middleweight champion of the United States and Canada, here in a 10-round bout.

SENATOR FALL

Committee Defers Action On His Separate Peace Plan.

The senate foreign relations committee, by a vote of 12 to 4, deferred action on the Fall resolution for a separate peace for the United States and Germany until the Germans have signed the Paris treaty.

WILLIAM HEARS NEWS

German Acceptance of Treaty Shocks Former Kaiser.

Admirers Had Hoped Some Way Would Be Found for Emperor's Return to Fatherland.

Amerongen, June 26.—Tidings of the German decision to accept the peace terms, including the clause providing for the delivery of the former kaiser to the Allies, have reached the castle.

Exactly how the former emperor was affected by the tidings cannot be ascertained, but the attitude of members of his party gives rise to the belief that the news was a considerable shock.

Attendants made the most scathing criticisms of the German national assembly for its action. Evidently they had held to the hope that some way would be found for the former emperor to return to Germany. Now, however, it is apparently realized that he is exiled forever from his country.

TO STAND NO FOOLISHNESS

Allies Prepared for Eventualities Should Foe Be Balky.

Paris, June 26.—France and presumably the other Allied and Associated nations are prepared for eventualities, should the Germans fail to carry out the provision of the treaty which now is ready for the signature of the delegates.

Premier Georges Clemenceau, in replying to questions of members of the chamber of deputies relative to demobilization, said that precautions were necessary, "in view of the state of mind of the Germans," the premier pointing out that the destruction of German ships in Scapa Flow and at Kiel showed the "spirit in which the Germans will sign the treaty."

HAMBURG FOOD WORKS BURN

Serious Riots in Which Numbers Are Killed and Wounded.

Copenhagen, June 26.—Serious rioting occurred at Hamburg when mobs attacked food preserving factories, it being alleged that the bodies of dogs and cats had been found in them. The managers were dragged to the streets and roughly handled. The war provision department also was attacked and its offices wrecked. The mob tried to disarm troops marching through the streets and the latter opened fire, a number of persons being killed and wounded.

CONCENTRATING ON BORDER

Aircraft Patrol Gathering Along International Line.

Washington, June 26.—Dispatches received by the army air service indicated that the aircraft patrol recently ordered to the Mexican border was being concentrated.

The air service announced that a squadron of six airplanes, commanded by Maj. Edgar E. Tobbin, had arrived at Fort Bliss from Kelly Field, Texas, that four other planes had arrived at Brownsville and Laredo, Texas, and that another plane had reached El Paso.

Wishart Accepts Wooster Post.

Chicago, June 26.—Dr. F. Wishart, pastor of the Second Presbyterian church of Chicago, announced his acceptance of the presidency of Wooster College, Wooster, Ohio. He was elected to succeed Dr. James Campbell White.

Bob Marriott Wins Title.

London, June 26.—Bob Marriott won the British lightweight championship here when Johnny Summers, titleholder, was disqualified for a foul in the tenth round.

North Dakota Referendum Election Held Today

(By United Press)

Bismark, N. D., June 26.—North Dakota voted today on seven bills passed by the last legislature. Two, the industrial commission bill and state banking bill, are a vital part of the non-partisan league program. The independent voters association brought about the referendum.

Townley on Trial at Jackson, Minn.

(By United Press)

Jackson, Minn., June 26.—A. C. Townley was expected to arrive here late today for his trial with Joseph Gilbert on charges of conspiracy to spread sedition during the war. Speeches made by both are to be used in an attempt to prove the charges.

Italian Commissioners Authorized to Sign

(By Camillo Cianfarra, United Press Staff Correspondent.)

Rome, June 26.—The Italian peace commission now in Paris has been authorized to sign the treaty. The new delegation was scheduled to leave Rome for Paris Saturday. The empowering of the old commission to sign resulted from a wish for no delay.

Norwegian Vessel Ashore.

Willemstad, Dutch West Indies, June 26.—The Norwegian steamer Vesla is reported straggled off the coast of Venezuela. The vessel was said to be in no danger.

Saturday Now the Day For Signing Treaty

(By Fred S. Ferguson, Staff Correspondent, United Press)

Paris, June 26.—The peace treaty will be signed at three o'clock Saturday afternoon it was learned from trustworthy sources today. It was further learned officially that Foreign Minister Mueller, Herr Giesberts and Herr Leinert had been appointed to sign for Germany. They will arrive in Versailles Saturday morning it is said. The note sent by the big four to Berlin yesterday protesting against the sinking of the German fleet in Scapa Flow and the burning of the French battle flags in Berlin, followed the presentation of reports by a special legal committee which declared these incidents are "examples of the spirit which the German must put down, if they desire admittance to the league of nations on an equal footing." The big four was expected to take under consideration today an intercepted wireless message from a German army commander, indicating his intention to attack the Poles as soon as peace is signed. President Wilson and other leading allied delegates will be guests of President Poincaré at dinner tonight.

Paris, June 26.—A decision to sign the peace treaty at three o'clock Saturday afternoon providing the Germans arrive that morning as promised, was reached by the allies today it was officially announced. President Wilson plans to leave for home Saturday night after the treaty is signed, sailing from Brest on Sunday.

(By United Press)

Washington, June 26.—One officer and three men of the American expedition in Siberia were killed and two wounded, when they went to the assistance of five comrades captured by the anti-Kolchak forces June 22. They were all regulars of the 31st infantry.

SENATE PASSES ARMY MEASURE

Senator Fall Withdraws His Peace Rider Resolution Before Final Vote.

ALLOWS 400,000 MEN

Bill Carries \$888,000,000, an Increase Over House Measure of \$171,000,000, and Now Goes to Conference.

Washington, June 26.—The army appropriation bill, carrying \$888,000,000, and providing for an average army of 400,000 men next year, an increase over the house bill of \$171,000,000 in funds and 100,000 in personnel, was passed by the senate without a roll call and sent to conference.

Before passage of the bill, Senator Fall, Republican, New Mexico, withdrew his amendment to declare the war with Germany and Austria at an end, explaining that he expected action within a day or two, on his joint resolution to the same effect as regards Germany now before the Foreign relations committee.

The senate began consideration of the annual naval appropriation bill, carrying \$646,272,000, an increase of \$45,000,000 over the house bill.

Final vote on the army bill was delayed temporarily by discussion of the peace treaty and league of nations. In this connection Senator Borah opposed the increase of the army for 1920 from 300,000 to 400,000 men, but without a record vote the senate approved the 400,000 provision, which is estimated to give pay and subsistence for 322,000 men in the army after next September.

As passed by the senate the principal items of the army bill are \$215,885,000 for army pay; \$523,991,000 for subsistence, and transportation; \$54,400,000 for aviation, an increase of about \$30,000,000 over the house appropriation; \$12,215,000 for the National Guard; \$19,000,000 for ordnance and \$45,000,000 for storage and shipping facilities.

The senate reduced from \$3,260,000 to \$2,660,000 the appropriation for purchase of the Dayton Wright aviation field at Dayton, Ohio, under an amendment by Senator Lenroot, which also stipulates that not more than \$1,000,000 shall be spent in acquiring 1,500 additional acres of land adjoining the Wright field, after appraisal and reduction by an army board. Another amendment adopted and reapproved would limit the salary of C. W. Hare in charge of disposal of surplus war material to \$12,000 a year, a reduction of \$12,000 from Mr. Hare's present salary.

ANDREW J. VOLSTEAD

MAY ANNUL DRY ACT

Democratic Leaders Believe President Will Take Action.

Expect Wartime Prohibition to Be Set Aside by July 1 or Very Soon Afterwards.

Washington, June 26.—In the face of the determination of the house judiciary committee to go ahead with drastic legislation for strict enforcement of the wartime and constitutional prohibition acts, administration leaders intimated the President would revoke the wartime prohibition act by July 1, or would indicate his intention to remove it "very soon thereafter."

These administration leaders reiterated what they believed to be the injustices of the wartime prohibition act "in view of the fact that with the signing of the peace treaty, the emergency was over."

No elucidation was offered as applying to the terms of the wartime prohibition act, which makes the law effective "until the conclusion of the present war, and thereafter until the termination of demobilization."

GOVERNMENT CROP REPORT

Four Northwestern States Will Show an Immense Yield.

Minneapolis, June 26.—Crop conditions as of June 1 of the four Northwestern states immediately tributary to Minneapolis—Minnesota, North Dakota, South Dakota and Montana—according to the estimate of the United States Department of Agriculture, indicate a total harvest in spring wheat, winter wheat, barley, rye and oats of 657,948,000 bushels. This is about 6,000,000 bushels under the crop of 1918 in these states, as shown by the government's summary of Dec. 1, 1918.

TWO DROWN IN MISSISSIPPI

Youth Succeeds in Rescuing Two Others at Minneapolis.

Minneapolis, June 26.—Joe Kluk, 18 years old, dived into the Mississippi river when he saw three girls and the mother of one struggling in a treacherous spot where the water was 15 feet deep and succeeded in saving two of them. Mrs. Helen Harbut and her daughter, Stella, were pulled out. The other two girls, Helen Tokar, 15 years old, and Mary Doulin, 13 years old, drowned.

ABANDONS FOREIGN SERVICE

War Department Withdraws Offer to New Recruits.

Washington, June 26.—Offer of service in Europe to recruits obtained under volunteer enlistment will be withdrawn under orders prepared by the War department. The policy of sending regular officers overseas to relieve those in the American expeditionary forces also will be abandoned.

HOUSE RATIFIES SUFFRAGE

Texas Lower Body Votes Favoring Amendment.

Austin, Texas, June 26.—The house of the Texas legislature, by a vote of 96 to 21, adopted the resolution ratifying the woman suffrage amendment Senator Westbrook, senate leader says 15 of 39 senators and the president of the senate are pledged to support the resolution.

DRASTIC LAW AGAINST LIQUOR

House Committee Reports Stiff Measures for Enforcement of Dry Act.

BILL READY FOR SOLONS

Beverages Containing More than One-half of 1 Per Cent Alcohol Intoxicating—Two Years Maximum Penalty for Violation.

Washington, June 26.—The house judiciary committee has completed drastic legislation for the strict enforcement of both wartime and constitutional prohibition.

With only slight modifications the bill Chairman A. J. Volstead of Minnesota will submit to the house is the same as that proposed by the "ultra-dry." An appropriation of \$3,500,000 is provided to carry out the act.

Intoxicating Liquor Defined.

The main provisions of the bill are: Any beverage containing more than one-half of one per cent of alcohol is "intoxicating liquor."

When the wartime prohibition act or constitutional prohibition goes into effect "it shall be unlawful to manufacture, sell, barter, give away, transport, import, deliver, furnish, receive or possess any intoxicating liquor except as authorized by this act." The only exceptions are for medicinal, scientific or sacramental purposes, or where liquor is stored in private homes, before prohibition goes into effect for private use.

2 Years Maximum Penalty.

Punishments for violations are as follows:

A fine of not less than \$100 nor more than \$500 for the first offense and a fine of not less than \$200 nor more than \$1,000 with imprisonment from thirty to ninety days for the second offense. A fine of not less than \$500 and imprisonment from six months to two years is provided for subsequent offenses. In addition, courts may require bonds as security that violators will not break the law again for one year.

Enforcement of the prohibition law is lodged with the commissioner of internal revenue and the department of justice.

Patent and proprietary medicine manufacturers must prove to the commissioner that their products cannot be used in place of intoxicating liquor.

Liquor Prescriptions Limited.

Liquor may be prescribed for medicinal purposes only by reputable physicians, not more than one prescription shall be given every 10 days. Pharmacists filling these prescriptions must be licensed.

Permits must be obtained to manufacture liquor for legal purposes, bond being required. Transportation permits are also required, both being furnished by the prohibition commissioner. Records of all transportation must be submitted.

All liquor must be clearly labeled as such when sold for legal purposes. Ten days after the passage of the act all liquor illegally held must have been disposed of, or it shall be considered violation of the law. All liquor legally held must be reported to the prohibition commissioner.

Illegal to Give Liquor Tip.

Advertisement of intoxicating liquor, by any method, or telling anyone where he can get a drink, is prohibited. Bill boards with liquor ads must be removed, or enforcement officers have the power to paint them over or remove them.

No formulas or recipes for making liquor and any tablets, substances, compounds or preparations for the same purpose may be sold.

Drinking on Trains Prohibited.

Drinking of liquor in public or in a railroad train, automobile, dining car or vestibule of a train is prohibited and conductors are given the power to arrest.

Any person injured by an intoxicated person can bring suit for damages against the person who sold or assisted in procuring the liquor for the intoxicated person.

Bootleggers shall be fined not less than \$500, nor more than \$1,000 and imprisoned for not less than one month nor more than a year.

Any violation of the act on leased premises shall constitute a forfeiture of the lease.

Search for liquor may be made on a warrant issued by a federal court, a court of record or a United States commissioner.

Liquor in Homes Permitted.

A man's right to store liquor in his home after July stood up against an attack on that provision of the prohibition enforcement bill before the committee.

Woman Released From Prison.

Pittsburgh, June 26.—Mrs. Helen Boyle, kidnaper of "Willie" Whittia Sharon, Pa., was released from the state penitentiary here after serving 10 years of her 25-year sentence.

Although the start of the British dirigible R-34 has been delayed until the Germans sign the peace treaty, active preparations are going on to take care of the airship when it arrives at Roosevelt Field, Mineola, Long Island. Sailors are seen here with the huge anchor staples which will hold the R-34 and prevent the airship being blown to sea as was the

American blimp C-5 at Newfoundland. These staples are being sunk in concrete blocks seven feet square and eight feet deep.

BEAR'S LAST FIGHT

Bruin Made Big Mistake When
He Tackled Turtle.

Like Ben King's Famous Pup, Slow-
Moving Loggerhead Demonstrated
That "What He Took Hold
of, He Never Let Go."

While bears are certainly dreadful
antagonists, they have been known to
get the worst of it when out of their
element. Curious and unequal com-
bats occur when beasts of prey attack
creatures under unusual circumstances.
The pursuer in such a case is likely to
incur more risk than the pursued, a
fact that was illustrated in a novel
encounter in a harbor of Florida be-
tween a bear and a turtle.

The crew of a schooner while ashore
heard a strange rumbling and pushing
around a turn in the beach, saw a huge
loggerhead turtle in deadly combat with
a big black bear.

From the men's position it seemed
that the bear had sprung upon the tur-
tle as it was retreating toward the wa-
ter, and had tried to overturn it. In
some way the bear had stepped in
front of the turtle, which, thrusting
its head out, had quickly seized one of
the bear's hind legs and held it.

At this the bear roared loudly, pawed
furiously at the turtle's back, and
tried to force it over. The turtle
resisted with all its strength
and weight. He settled down close to
the ground whenever the bear made
an extra effort. Then, as the bear
would relax its efforts the turtle would
suddenly start up and endeavor to get
nearer the water, keeping his firm hold
on the bear's leg.

Finally, by a sudden push and a pow-
erful muscular effort of his head and
paws, bruin managed to get the turtle
half set, one side being raised a foot
or two. Pursuing his advantage, he
seized one of the turtle's hind flippers
in his jaws, and the snap that followed
showed that the bear felt that things
were coming his way.

He continued to chew the flipper
and endeavor to overthrow the turtle.
But his antagonist worked around and
finally got in a stroke with its sharp
claw that badly ripped the bear's un-
derhide. This infuriated the bear to
such an extent that he let go his grip
on the flipper and, reaching his head
down, tried to reach and free his hind
leg. Herein he committed a terrible
tactical error and the enraged logger-
head quickly improved the opportunity
thus afforded him.

As the bear's nose came within
reach the turtle let go the hind leg
and quick as a flash fastened his iron
grip upon the bear's jaw. The bear
was taken by surprise and roared lustily
with pain and rage. The turtle
pushed on and dragged his unwilling
captive along. The bear saw his danger
and felt it, too, for they were so
near the water's edge that the waves
were splashing them.

The bear continued to struggle fer-
rociously, but his strength soon began
to fail, for the turtle dragged him deeper
and deeper. Fighting with his head
half the time under water so exhaust-
ed the bear that presently he began to
gurgles. That moment was fatal. The
loggerhead marched off into the sea
with his enemy and the last seen of
the bear was the feeble kicking of his
hind legs. Next day his body was
washed ashore, cut into a dozen pieces.

Can An Auto Prance?
Can an automobile prance?—or is it
in this one respect inferior to the
horse? A few days ago a handy little
truck was navigating Spring street,
Jeffersonville, which is rather rough
because the war delayed repairs. It
was loaded with long boards which
projected far behind and practically
balanced the truck on the rear axle.
When holes in the street were struck
the front wheels reared up so violently
that the chauffeur, or driver, was
ejected into the air. He then got
down and "led" his truck which did
not prance unless running at least
five miles an hour. Had he "let'er out"
she would certainly have set on her
tail. —Indianapolis News.

REFRIGERATORS

There is real comfort in having one of our refrigerators "on duty"
in your household during the hot summer months, but it also
means more than that to have one in operation, it means you are
practicing real economy.

Our Refrigerators

Are so scientifically constructed that they produce a cold tem-
perature. Everything remains crisp and fresh, while the tempera-
ture remains unusually cool, the quantity of ice needed to produce
this is unusually small.

For genuine satisfaction and all-around serviceability we re-
commend our White Mountain or Northland Refrigerators.

The Scorpion.

The scorpion is a well-known venomous insect of hot climates, shaped much like a lobster. It is usually not more than two or three inches long, but in tropical climates is sometimes six inches in length. The wilderness of Sinai is especially alluded to as having been inhabited by scorpions at the time of the exodus, and to this day these animals are common in the same district, as well as in some parts of Palestine. Scorpions are generally found in dry and in dark places, under stones and in ruins. They are carnivorous in their habits, and move along in a threatening attitude, with the tail elevated. The sting, which is situated at the end of the tail, has at its base a gland that secretes a poisonous fluid, which is discharged into the wound by two minute orifices at its extremity. In hot climates the sting often occasions much suffering, and sometimes alarming symptoms.

Cameron-Blackburn

A pretty home wedding was celebrated at the home of Mr. and Mrs. Angus Murray of Oak Lawn when their niece, Miss Bessie Emmet Cameron was united in marriage to Frank T. Blackburn, Rev. Hans J. Wolner, officiating.

The bride is a charming young lady of Olympia, Wash. and was formerly a resident of Oak Lawn.

The groom is a resident of this city and is employed in the N. P. shops. He is esteemed by all who know him.

The bride was attired in blue satin and carried a bridal bouquet of syringa. The bridesmaid, Miss Violet Murray was attired in white organza and carried pink roses.

The groom was attended by his brother Thomas T. Blackburn.

The rooms were decorated in pink and white. The ceremony took place at 11 o'clock under a bower of syringa, after which a bounteous dinner was served. Covers were laid for twenty-five.

The bridal couple left for an extended honeymoon by auto, after which the bride will return to her home in Olympia and will be joined later by her husband.

Many beautiful gifts were received. Their many friends with them happiness and prosperity.

Klath-Rodin

The marriage of Miss Jennie T. Klath of Pine River to John E. Rodin of Cass Lake took place at the parsonage of the Swedish Lutheran church, Rev. E. G. Carlson officiating. The young couple will make their home in Cass Lake at present and will later remove to Brainerd.

Bethlehem Men's Society

The Bethlehem Men's society will meet this evening with Chas. Ellison, this being the occasion of his birthday.

Prayer Meeting

The Finnish Lutheran church will hold a prayer meeting this evening at 8 o'clock at the home of J. Terska, Norwood street.

EAST TO SEE ONE'S BRAIN

Scientist Asserts That All That Is Necessary Is a Candle and Some Perseverance.

"Have you ever seen your brain?" is not such an outlandish question as one might suppose. In fact, it is quite possible to see one's own brain, according to Dr. Fraser Haile, says London Tit-Bits.

Many years ago Purkinje startled the scientific world by announcing that by passing a candle to and fro several times by the side of the eye, this might be done. The air in front, he declared, was transformed into a kind of screen on which was reflected what he supposed to be a magnified image of part of the retina.

This started a research movement among the scientists of the period, and a controversy began.

Sir C. Wheatstone thought the professor was slightly out of his bearings. He declared that what the latter had seen was merely the shadow of the vascular network.

Then Dr. Fraser Haile returned to the attack, and stated that he had succeeded in identifying the picture with the representation of the "anterior lobe of the cerebrum."

The candle should be moved to and fro about four inches below the eye and three and a quarter inches from the face. If the movement is suspended, the image disappears. Night is the best time for this experiment, but it can be seen faintly, in any dark place even in the daytime.

THE ANIMALS ARE WILD

Al G. Barnes' big four-ring wild animal show is coming to Brainerd July 3.

There are 1200 wild and domestic animals and 500 people with the aggregation.

Most of the trainers of the big wild animal acts are women. These women, says Barnes, are more daring than the men in the steel barred arenas.

Lions, tigers, panthers, bears, elephants, every variety of jungle life, take part in the Barnes circus. They have been taught to perform tricks that men and women perform in the

average circus.

There are 30 lions with the show, more lions than with any other circus in the world. Fifteen bears, a group of royal Bengal tigers, monkeys, wolves, hyenas and camels are also with the show.

Jungle babes, born in winter quarters, will appear in the cages for the first time with their mothers in acts rigged up for their especial benefit.

The Barnes circus travels in a special train containing 40 cars.

The circus will show here for one day, giving two performances. There will be a downtown parade at 10:30 a. m. Doors open at 1 and 7 p. m.

"TREATY WORTHLESS"

Called "Scrap of Paper" by Berlin Newspaper.

Valid Only While Backed by Force of Allies, Is Assertion—Food Riots in Berlin.

Berlin, June 26.—The treaty is described as a "scrap of paper," by the Vorwaerts, majority Socialist organ. "Extortionate pressure renders signature of the peace treaty worthless," said the Vorwaerts. "We must never forget it is only a scrap of paper. Treaties based on violence can keep their validity only so long as force exists. Do not lose hope. The resurrection day comes."

The Preussische Kreuze Zeitung, in an editorial headed "Flint Germaniae" (the end of Germany), declared that "it is our duty not to permit the Prussian spirit to be crushed."

The Tagliche Rundschau blamed Philipp Scheidemann and Matthias Erzberger for the "disaster."

The National Volk party has announced the sharpest opposition to the new Bauer government.

General von Lutwitz has appealed to officers and soldiers to continue on duty.

Food riots occurred in Berlin, and it was feared they might grow in scope and violence. A strike involving postal, telegraph and telephone employees seemed certain.

The governor of West Prussia has announced his resignation.

DRASTIC ANTI-LIQUOR MEASURES PROPOSED

- Beverages containing more than one-half of one per cent alcohol held intoxicating liquor.
- Maximum fine of \$1,000 and two-year jail sentence for violation of prohibition laws.
- Physician may not prescribe liquor to last more than 10 days.
- Illegal to tell person where liquor can be had.
- Drinking on trains prohibited.
- Conductors given power of arrest.
- Maximum fine of \$1,000 fixed for bootleggers.
- Motorcars, airplanes, other vehicles, carrying liquor subject to confiscation.

Exterminating Pests.

Uncle Sam employs approximately 300 professional trappers and hunters to assist western stockmen in exterminating wild predatory animals from the range country. These hunters have killed 70,713 predatory animals in the last three years, which has resulted in a direct saving estimated at nearly 5 1/2 million dollars a year to the stockmen of the Rocky Mountain section. The total kill consisted of 60,473 coyotes, 8,064 bobcats, 1,829 wolves, 201 mountain lions and 137 bears. The pelts of the animals killed were sold for approximately \$100,000, which, of course, is of considerable aid to the government in financing the work. In addition to animals killed by trapping and shooting, great numbers of coyotes have been killed by the carefully organized poisoning campaigns conducted by the biological survey.

Modern Gallantry.

I shall be even disposed to rank it among the salutary fictions of life, when in polite circles I shall see the same attentions paid to age as to youth, to homely features as to handsome, to coarse complexions as to clear—to the woman as she is a woman, not as she is a beauty, a fortune or a title. I shall believe it to be something more than a name when a well-dressed gentleman in a well-dressed company can divert to the topic of female old age without exciting, and intending to excite, a sneer—when the phrases, "antiquated, virginity," and such a one has "overstood her market," pronounced in good company, shall raise immediate offense in man, or woman, that shall bear them spoken.—Charles Lech.

ARMY OF 500,000 URGED BY MARCH

CHIEF OF STAFF THINKS THAT IS NECESSARY UNDER THE LEAGUE OF NATIONS.

ALSO ADVISED BY MR. BAKER

Secretary of War Would Stimulate Enlistments By Offering Educational and Recreational Features—Senate May Agree to 400,000.

By EDWARD B. CLARK.

Washington.—Military men say that 500,000 regular troops will be necessary to maintain America's part of its obligations under the League of Nations. General Peyton C. March, chief of staff, has testified to this effect before the senate committee on military affairs.

There is apt to be a misunderstanding concerning what is said before the committees of congress on army matters. The administration has asked for appropriations for continuing a force of 500,000 in service until peace becomes stable and the League of Nations becomes a reality. If it is to become one, in addition to this, the belief of military men is that a large force of regulars must be maintained after the present war is a thing of the past and the League of Nations is in existence.

This is a mere statement of the things that have been presented by military chiefs and by the secretary of war to the house and to the senate committee which has been taking under consideration the matter of appropriations for the army as it is to continue until peace is an actuality. In the hearings which have been held the future has been gone into as well as the present, and it is for this reason that the regular army of the future has been under discussion.

Wide Variance of Opinion.

There seems to be a feeling among majority members in congress that the United States regular army safely can be cut to 125,000 men after peace definitely is established. Therefore the country can see at once how wide the variance is between congress and military chiefs on the subject of the force necessary for the country to maintain under the ordinary conditions of world affairs. It seems that the chief of staff believes the provisions of the League of Nations will make it necessary for us to maintain an army of half a million, notwithstanding the fact that the league in its provisions aims to make military forces to a considerable extent unnecessary. However, as the chief of staff views it, the force will be necessary in case the provisions of the league are violated and the United States intends to live up to its obligations under the covenant.

Secretary of Baker in urging that present appropriations be based on an army of 500,000 men is moved by his desire to make recreational and educational work in the army an abiding feature thereof in order to stimulate enlistments and to make the army not only a fighting force, but a school in which men can fit themselves for certain lines of activity in civil life. It has been the endeavor to get from army men their views of the possibilities of enlisting by the volunteer plan enough men to keep filled the ranks of an army of half a million men. No army officer has been found who believes that in peace times the ordinary enlistment methods will be sufficient to maintain the half million force which March thinks will be necessary.

It is the secretary of war's view that if recreational and educational features are added to the service of the soldier, young men will be willing to enlist in order to get the benefits which the service will afford.

May Adopt Training in Schools. If the war department and congress finally conclude that an army of 500,000 is necessary in times of peace, and it is found that even with recreational and educational features added young men do not enlist rapidly, there probably will be included in the army legislation a provision for military training for the young men of the country, not universal military training, but training for such of the boys as attend schools which receive government support.

The house the other day voted appropriations for a present army of only 300,000 men. It is the urgent wish of the war department that the senate shall amend the house action so as to provide for half a million men. It seems almost certain that the senate will increase the house estimate, but whether or not it finally will fix the force at half a million men is to be doubted. More likely there will be a compromise, and so when the appropriations finally are voted they may provide for an army of the present of a strength of about 400,000 men.

While the chief of staff is prophesying that 500,000 men will be needed for the regular army of the future, he also is saying it is probable that certain branches of the service can be done away with. General March seems to think that because Germany under the peace terms is not to be allowed to manufacture gas shells, the United States should not continue its preparations for the use of gas for defense purposes only. If some enemy of the future should use gas and we had made no preparation against it, the enemy, of course, could thrash the United States out of hand.

Notice!

TO ALL EMPLOYEES OF THE TELEPHONE AND TELEGRAPH COMPANIES

For the purpose of advising all workers that a settlement has been made between the International Brotherhood of Electrical Workers and the Postmaster General and informing them of its provisions, we publish order No. 3269 issued by the Postmaster General.

The Order is as follows:

"POST OFFICE DEPARTMENT, Washington

June 14, 1919.

Order No. 3269.

Employees of telephone companies shall have the right to bargain as individuals or collectively through committees or their representatives chosen by them to act for them. Where prior to Government control a company dealt with representatives chosen by the employees to act for them who were not in the employ of the company, they shall hereafter do so. The telephone companies shall designate one or more of its officials who shall be authorized to deal with such individuals or representatives in matters of better conditions of labor, hours of employment, compensation or grievances and such matters must be taken up for consideration within 60 days after presentation.

Such employees shall have the right to organize or to affiliate with organizations that seem to them best calculated to serve their interest, and no employees shall be discharged, demoted or otherwise discriminated against because of membership in any such organization, as prescribed in Bulletin No. 9, issued by me, dated October 2, 1918. In case of dismissal, demotion or undesirable transfer of employee where no real cause is shown by company for said dismissal, demotion or undesirable transfer, it shall be considered that discrimination was practiced and upon such finding the employee shall be reinstated to former position with full pay for time lost or shall be reimbursed for any loss sustained by reason of demotion or transfer.

Inability or refusal to perform the regular work of position occupied by them, excessive use of intoxicants, dishonesty, incivility to subscribers or the public shall be considered sufficient cause for dismissal.

Where requests or demands are now pending, the telephone companies shall immediately proceed to negotiate a settlement.

All telephone companies are hereby directed to comply strictly with the requirements of this order, and failure to do so on the part of any official will result in disciplinary action.

(Signed) A. S. BURLINSON, Postmaster General.

It will be noted this settlement recognizes the right of the employees of the telephone companies to bargain with the employers individually or collectively as they may desire. It recognizes the right of such employees to organize or affiliate with such organizations as they desire. The order prohibits discrimination against any employee for joining an organization, and further provides that in the case of discrimination which results in dismissal, demotion or undesirable transfer, as a result of employees joining a Union or Organization, that they shall be reinstated with full pay for the time lost and shall be reimbursed for any loss sustained.

The order also provides the telephone companies shall designate one or more of its officials to deal with such individuals or representatives in the matter of conditions of labor, hours of employment and compensation or other grievances, and that all demands or grievances now pending, the telephone and telegraph companies shall immediately proceed to negotiate with the proper representatives of the employees, for settlement.

Many employees are working in localities remote from their respective headquarters, and it is considered that the most practical way of providing them information concerning the settlement, and relative to their rights and privileges, is through the public press.

All employees of the telephone companies, in either the mechanical or operating department who may have grievances, or desire to take up the question of wages, working conditions, hours of employment, are requested to proceed in the manner provided by Order No. 3269 and where such employees desire the International Brotherhood of Electrical Workers to represent them, they should file their request with, E. L. Dahl, 302 1st Ave. N. E., Brainerd, Minn., or take the matter up direct with the International Headquarters of the International Brotherhood of Electrical Workers, Fourth Floor Reich Bldg., Springfield, Illinois.

Respectfully yours,
 INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS.
 JAS. P. NOONAN,
 Acting Int. President.
 CHAS. A. FORD,
 International Secretary

RECORD PRICE FOR FARM LAND PAID

\$100 per Acre, Cash, for 160 Acre Farm which Mrs. Ottilia Keough Sold Through

DAWES LAND COMPANY, AGENT

George McKay of Fillmore County, Minn., Purchaser to Start Active Farming Soon

\$100 an acre for a 160 acre farm is the record price brought by agricultural land near Brainerd.

Mrs. Ottilia Keough and family sold their quarter section located at the corner of the Oak street and poor farm roads at the price named through the Dawes Land Co of Brainerd; to George McKay of Fillmore county of this state. Mr. McKay proposes moving on the place next March when he will become a permanent resident.

This is the first land sold in the county for purely agricultural purposes which commanded such a price and proves conclusively the strides farming is making in Crow Wing county. Mrs. Keough and such of the children as were home managed the farm 17 years since her husband died. The family has resided 30 years in the county.

She has two sons and six daughters and each has been successful in the avocation chosen. Friends will regret greatly should they remove from the vicinity.

MARTIN KRUGER DIED

Passed Away Thursday Morning at the Home of His Daughter, Mrs. G. D. Weber of South Side

Martin Kruger died on Thursday morning at 8:50 o'clock at the home of his daughter, Mrs. G. D. Weber, 412 South Fifth street. He leaves to mourn his death his wife and six children, Mrs. A. H. Springer of Eau Claire, Wis.; Mrs. G. D. Weber of Brainerd; Emil of Ryder, N. D.; Gust of Little Falls; Theodore of Ironton; Albert of St. Mathias, and one brother of Little Falls, all of whom were at his bedside at the time of his death. He was born in 1837. He lived the greater part of his life in Little Falls. Always of a cheerful disposition and well liked by all who knew him, he made and kept many friends.

The funeral will be held on Saturday, June 28, at 2 o'clock from the residence and at 2:30 o'clock from the German Evangelical church on Bluff Avenue, Rev. Bunge officiating.

PROVISIONAL OFFICER OF SALVATION ARMY

Col. Stephen Marshall of Minneapolis to Visit Local Salvation Army Corps June 28-29

OPEN AIR RALLY SAT'Y. NIGHT

The Colonel is One of the Army's Most Able Speakers and an Officer of Great Prominence

Colonel Stephen Marshall, of Minneapolis, provincial officer of the Northern Province of the Salvation Army will visit Brainerd on Saturday and Sunday, June 28th and 29th. He will conduct several special meetings while in the city.

Saturday night there will be an open air rally on the street and Christian friends are invited to take part. Following there will be a special service at the Army hall on Front street.

The Colonel is one of the Army's most able speakers and an officer of great prominence. Brainerd people should avail themselves of this opportunity to hear him. He will be assisted by one of the headquarters staff.

Everyone is cordially invited to attend these services.

"NO ACCIDENT WEEK" ON THE RAILWAYS

Northern Pacific to Date had Five Injuries Reported on its Entire 6,556 Mile System

NO FATALITIES REPORTED

Minnesota & International Railway has 1,000 Per Cent Clear Record for Four Days

The Northern Pacific railway system with a mileage of 6,556, continues to make a good record in "No Accident Week".

For Sunday, June 22, first day of the contest only, one injury, that of an employe on a dining car, was reported.

June 23 there were two reportable injuries, one on the Pasco division and one on the Puget Sound division. The complete reports on the whole system for the first two days give no fatalities, no accidents, and the three injuries named.

On Tuesday the Northern Pacific railway shops at Brainerd had a man injured, G. N. Grant, who was struck by a chain.

On Wednesday the same shops at Brainerd reported a man injured, Ramie Landry. The latter was swinging a sledge which caught in a wire and tapped his head, injuring same and causing him to fall from a platform and break his collar bone.

The Minnesota & International railway, headquarters in Brainerd, reports 1,000 per cent clear of all accidents, injuries or fatalities. It has a clear record for Sunday, Monday, Tuesday and Wednesday.

Under General Manager W. H. Gemmell's direction the railway employes are exerting themselves to the utmost to keep the record clear. The line's mileage is 216. The road is one of the best feeders of the Northern Pacific, handling a very heavy tonnage of wood products, farm products, etc.

"GOOD TO SEE"

Bemidji Daily Pioneer Editorially Refers to Visiting Shopmen and Their Families

Under the heading "Shopmen and Families Good to See," the Bemidji Daily Pioneer refers as follows to the visiting shopmen of Brainerd on their recent annual picnic held in the northern city:

Whenever the Northern Pacific employes of the Brainerd shops think it about time to hold their annual picnic, they send out a representative to look over prospects as a place for holding and when the decision is made that settles it. Committees are appointed to look after matters and no further fuss is made. Then on the day appointed the Mr. done his best, takes a lunch basket and leads a young hopeful, while those able to care for themselves come along, the Missus, good wholesome soul, carries the babe, they board the special train and take the day off.

Then there is the corps of execu-

tives of the big shops, looking after the welfare of the tourists, for there are usually 2,500, including families and friends, husky young men, bright faced and buxom girls and their elders of sedate mien. A band plays stirring music and they all go somewhere for the day's outing.

And fortunate indeed is the city which receives them as their guests. We hope they will come again. They are good to see and answer the query, "Why is Brainerd?"

Golden Eggs.

The value of the eggs and poultry produced every year in the United States is now \$750,000,000, or more than that of all the gold, silver and diamonds produced in a year in the whole world. There are about three hens to a person, and each hen lays on an average 80 eggs a year. The best layers produce as many as 240 a year. Farmers' flocks consist on the average of only about 40 birds, but even at that they contribute notably to good living on the farm.

Free Now Search for Gold.

With the exception of the years of 1915 and 1916, when discoveries of tungsten brought a horde of wealth seekers to the Colorado hills, the search for gold has steadily diminished since the gold rush 25 years ago. At that time old mining men say, the mountains were full of prospectors searching for new veins and placer deposits. The new generation has not followed in the footsteps of the old and one of the picturesque features of Western life is becoming extinct.

NATURE'S MIRROR

When a woman is well and healthy—there's a sparkle in her eyes, a rose tint in her cheeks, and she has rich red blood. There's elasticity in every movement and a spring in her step. Love

comes to every woman who has bounding health—but when she is pallid, dull eyed, languid, she has no magnetism nor does she appeal to any man.

Such a change in feelings and looks!

After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable, contains no alcohol.

Druggists sell it in tablets or liquid. Send Dr. Pierce, Buffalo, N.Y., 10c for trial package.

WHO DOES *the* BUYING FOR YOUR FAMILY?

There is someone in your family who has a big responsibility.

Food to buy for the table; clothes for the children and grown-ups; new household utensils, linen, furniture, books and all the hundred and one little things for which the family income is spent.

In most families, one person does the bulk of the buying. And it is that person's job to see that the money is well spent---that you all get full value for every cent that goes out.

The success of a family depends on wise buying just as the success of a business does.

Wise buying means intelligent buying. It is necessary to have knowledge of goods and stores.

The best way to get this knowledge is by reading advertisements. They tell you what is new and good. They tell you where and when to buy to advantage.

Not only the person who does the buying but every member of the family should read advertisements. It is the duty of all the others to help the one who does the buying by pointing out advertisements of new goods and giving all the information possible as to tastes and styles and values.

Advertisements are published for your benefit. Make use of them by reading them.
